Open Access. Authors can use the Optional Open Access publication model for a specific publishing fee. It is an option for the author to pay the Article Processing Charge (APC) and have the final full text version of his/her article published as an Open Access one. The full text of an Open Access paper is freely accessible through the official website of the journal. These papers are also published in the printed journals as well as all the traditional ones. The peer review process and the quality requirements are the same in case of both traditional and Open Access manuscripts. Both accepted new manuscripts and papers published earlier can be Open Access. The APC of an Open Access article is EUR 1,100.00 (incl. VAT), but it can be even less. Akadémiai Kiadó offers discounts for institutions of low- and middle-income countries and Editorial Board members. Discounts may not be combined. By signing the Open Access License Agreement and paying the APC, the Author retains the ownership and further rights related to the Article while ensuring the wide accessibility of the Article in the written and electronic media controlled by Akadémiai Kiadó. See <https://akjournals.com/page/authors> for details. Should you have any questions, please contact the editors of the journal.
