No *peer review charge* applies.

REVIEW PROCESS

PREFERRED CONDITIONS OF MANUSCRIPTS

DEVELOPMENTS IN HEALTH SCIENCES strives to publish high quality papers. To ensure this goal, we apply some basic principles when reviewing a manuscript. Not fulfilling these principles may lead to desk rejection of a submitted manuscript.

CHECK FOR PLAGIARISM

Every submission is scanned against plagiarism using the program **Turnitin**.

REVIEW OF THE MANUSCRIPTS

As a routine, each paper will be read by at least two unbiased peer reviewers, chosen avoiding any conflict of interest. DHS applies a double-blind review process, in which neither of the authors', nor the reviewers' identities are revealed.

Authors are welcome to suggest or exclude reviewers when submitting their manuscripts. Suggested reviewers may not be in any way affiliated with the author or the work. Authors should provide any means of verifying the identity of the suggested reviewer, excluding e.g. a private email address. The editor may not use author's suggestion, but it may facilitate the review process.

The usual duration of the review process is ca. 12–36 weeks.

Unpublished results are treated strictly confidentially.
