

International Review of Applied Sciences and Engineering

Instructions for Authors

AIMS AND SCOPE

INTERNATIONAL REVIEW OF APPLIED SCIENCES AND ENGINEERING offers a comprehensive range of articles on all aspects of engineering and applied sciences. It provides an international and interdisciplinary platform for the exchange of ideas between engineers, researchers and scholars within the academy and industry. It covers a wide range of application areas including architecture, building services and energetics, civil engineering, electrical engineering and mechatronics, environmental engineering, mechanical engineering, material sciences, applied informatics and management sciences. The aim of the Journal is to provide a location for reporting original research results having international focus with multidisciplinary content. The published papers provide solely new basic information for designers, scholars and developers working in the mentioned fields. The papers reflect the broad categories of interest in: optimisation, simulation, modelling, control techniques, monitoring, and development of new analysis methods, equipment and system conception. The journal's language is English.

EDITORIAL BOARD INFORMATION

INTERNATIONAL REVIEW OF APPLIED SCIENCES AND ENGINEERING was founded in 2010 by the University of Debrecen. Its publisher is Akadémiai Kiadó, Budapest, Hungary.

EDITORIAL BOARD

INTERNATIONAL REVIEW OF APPLIED SCIENCES AND ENGINEERING is handled by an independent Editorial Board of autonomous scholars. Free from any external influence, they decide about the journal's policies in general, and – based on the outcome of the peer review – about the acceptance or rejection of papers in each concrete case. The names and affiliations of the Editorial Board members can be found on the [journal's web page](#).

REVIEW PROCESS

PREFERRED CONDITIONS OF MANUSCRIPTS

The INTERNATIONAL REVIEW OF APPLIED SCIENCES AND ENGINEERING strives to publish high quality papers. To ensure this goal, we apply some basic quality and relevance criteria when reviewing a manuscript, in particular every submission undergoes iThenticate plagiarism and self-plagiarism check (including original, revised as well as accepted versions of the MS). The similarity index may not be higher than 13% (excluding references). Not fulfilling these requirements may lead to desk rejection of a submitted manuscript.

REVIEW OF THE MANUSCRIPTS

Each paper will be read by at least two unbiased peer reviewers, chosen avoiding any conflict of interest. INTERNATIONAL REVIEW OF APPLIED SCIENCES AND ENGINEERING applies a single-blind review process, in which the reviewers' identities are hidden to the authors while the reviewers are aware of the authors' identity.

Authors are welcome to suggest at most three potential reviewers when submitting their manuscripts. They cannot be employed in the same country as any of the authors. Suggested reviewers may not be in any way affiliated with the author or the work. Authors should provide academic email addresses of the proposed reviewers. The editor may not use author's suggestion, but it may facilitate the review process. Excluding reviewers is not possible.

Editors are not involved in decisions about papers which they have written themselves or have been written by family members or colleagues or which relate to products or services in which the editor has an interest. Any such submission is subject to all of the journal's usual procedures, with peer review handled independently of the relevant editor and their research groups.

Unpublished results are treated strictly confidentially.

Instructions for Authors

The articles published in the framework of the *EISZ Read and Publish Agreement* (see below, under AUTHOR CHARGES) are covered by the *Creative Commons Attribution 4.0 International License*. That is, their use is allowed also for commercial purposes.

AUTHOR CHARGES

In accordance with the agreement between the [Electronic Information Service National Programme](#) (EISZ) and Akadémiai Kiadó, papers with a corresponding author affiliated to a member institution subscribing to the journal package of Akadémiai Kiadó will be published without an author fee (APC).

In principle, the Authors of manuscripts submitted after Feb 1, 2020 and not covered by the agreement between EISZ and Akadémiai Kiadó are requested to pay the *Article Processing Charge* (APC) to cover the publishing costs of the paper. However, in practice, there are a number of funded waivers, courtesy of the University of Debrecen. If the corresponding author is not affiliated with an EISZ member institution, and in the unlikely event that funded waivers have run out, the APC is 1,100 EUR (including VAT, if applicable). Akadémiai Kiadó offers a 50% discount to Editorial Board members, and to authors affiliated with institutions in [lower-middle-income countries](#), whereas authors from [low-income economy](#) institutions would be granted a 100% discount. Discounts may not be combined.

Authors without a waiver will be requested – after acceptance of their paper in INTERNATIONAL REVIEW OF APPLIED SCIENCES AND ENGINEERING – to enter our online payment platform (<https://apc.akademiai.com>), where after registration they can upload the license agreement and settle the fee by bank transfer or with a credit card. Manuscripts with outstanding payment will not be processed until the balance is cleared.

Please note that there is no peer review charge, the only applicable fee might be the article processing charge.

For more information on Akadémiai Kiadó's Open Access policy visit our [website](#).

ETHICAL STATEMENT

INTERNATIONAL REVIEW OF APPLIED SCIENCES AND ENGINEERING and Akadémiai Kiadó are committed to the ethical practices in science publishing and therefore follow the COPE [Code of Conduct for Journal Editors](#) as well as the [Code of Conduct for Journal Publishers](#). All authors are expected to be aware and follow the [Ethical Guide of Akadémiai Kiadó](#), conform to the highest standards of ethical conduct in the submission of accurate data, and acknowledging the work of others.

Editors and Editorial Board members are welcome to submit their own papers to their journals. These submissions – as well as any other submission with which they have any kind of conflict of interest, e.g. those by their students – must be handled by other editors. All such submissions must be peer reviewed and evaluated as any other. Possible conflicts of interests (such as previous co-authorship or working in the same department) should be considered when choosing peer reviewers.

PREPARATION OF THE MANUSCRIPTS

INTERNATIONAL REVIEW OF APPLIED SCIENCES AND ENGINEERING publishes Original Research Papers and Review Papers. Review papers are generally by invitation. However, prospective authors are welcome to submit review paper proposals to the Editor-in-Chief.

Instructions for Authors

MANUSCRIPTS

Manuscripts should be written in clear, concise, and grammatically correct English. The order should be as follows: *title page, abstract, keywords, text, appendix, acknowledgements, notes, references, tables, figures, figure captions.*

TITLE

The *title* should be concise and informative. Abbreviations in the title should be avoided.

ABSTRACT

should preferably not exceed 200 words.

KEYWORDS

should preferably not exceed 10.

TEXT

The body of research reports will generally include the following headings: *Introduction, Materials and Methods, Results, Discussion, Conclusions (Limitations)*. Further subheadings are acceptable.

ACKNOWLEDGEMENT

You may add an optional *Acknowledgements* section for any further information you wish to disclose.

FOOTNOTES

should only be used if absolutely necessary.

REFERENCES

in the text should be cited by names only if they are part of the sentence: "Hilton [5] described earlier...," otherwise they should be indicated by the reference number(s) in square brackets [3, 7, 12]. If there are more than two authors, the name of the first author should be used, followed by "et al." List the references in order of appearance at the end of the paper. The style and punctuation of references should conform to that used in the journal, following the IEEE Guidelines. For examples visit https://journals.ieeeauthorcenter.ieee.org/wp-content/uploads/sites/7/IEEE_Reference_Guide.pdf.

TABLES

Each, bearing a title, should be self-explanatory. They should all be mentioned in the text, numbered consecutively with Arabic numerals and placed on separate sheets at the end of the manuscript, following the *References*.

FIGURES

Figures should be inserted within the text or in the end of the manuscript following the References, or as separate files if so preferred. Figures must be prepared in *.JPG, *.TIF or *.BMP format, and numbered in order of citation in the text. All figures should be mentioned in the text. Color or gray scale photograph and line drawing resolution must be at least 600 DPI.
