

Progress in Agricultural Engineering Sciences

Instructions for Authors

AIMS AND SCOPE

PROGRESS IN AGRICULTURAL ENGINEERING SCIENCES publishes original papers, review papers and preliminary communications in the field of agricultural, environmental and process engineering. The main purpose is to show new scientific results, new developments and procedures with special respect to the engineering of crop production and animal husbandry, soil and water management, precision agriculture, information technology in agriculture, advancements in instrumentation and automation, technical and safety aspects of environmental and food engineering. The journal's language is English.

EDITORIAL BOARD INFORMATION

PROGRESS IN AGRICULTURAL ENGINEERING SCIENCES was founded in 2004 by the Hungarian Academy of Sciences. Its publisher is Akadémiai Kiadó, Budapest, Hungary.

EDITORIAL BOARD

PROGRESS IN AGRICULTURAL ENGINEERING SCIENCES is handled by an independent Editorial Board of autonomous scholars. Free from any external influence, they decide about the journal's policies in general, and – based on the outcome of the peer review – about the acceptance or rejection of papers in each concrete case. The names and affiliations of the Editorial Board members can be found on the [journal's web page](#).

CONTACT

In case of any query, please, feel free to contact: felfoldi.jozsef@uni-mate.hu.

ADDRESS OF THE EDITORIAL OFFICE

PROGRESS IN AGRICULTURAL ENGINEERING SCIENCES
MATE – Hungarian University of Agriculture and Life Sciences
Institute of Food Sciences and Technology
Department of Measurements and Process Control
H-1118 Budapest, Somlói út 14–16, HUNGARY

PUBLICATION SCHEDULE

One volume of one issue is published every year.

DIGITAL ARCHIVE

The entire journal content is archived in the [Portico](#) preservation archive.

SUBMISSION INFORMATION

Submission of a paper to PROGRESS IN AGRICULTURAL ENGINEERING SCIENCES will be taken to imply that it represents original work not previously published, that it is not being considered elsewhere for publication, and that if accepted for publication it will not be published elsewhere in the same form, in any language, without the consent of editor and publisher. Submissions are to be accompanied by a signed statement thereof (see links to the License Agreement forms under section COPYRIGHT AND LICENCE POLICY/OPEN ACCESS below).

Progress in Agricultural Engineering Sciences

Instructions for Authors

SUBMISSION

Authors should submit their manuscripts using the online manuscript submission and peer review *Open Journal System*. Details are available online at <https://submit.akademiai.com/progress>.

REVIEW PROCESS

PREFERRED CONDITIONS OF MANUSCRIPTS

PROGRESS IN AGRICULTURAL ENGINEERING SCIENCES strives to publish high quality papers. To ensure this goal, we apply some basic quality and relevance criteria when reviewing a manuscript, in particular every submission undergoes iThenticate plagiarism and self-plagiarism check (including original, revised as well as accepted versions of the MS). The similarity index may not be higher than 13% (excluding references). Not fulfilling these requirements may lead to desk rejection of a submitted manuscript.

REVIEW OF THE MANUSCRIPTS

Each paper will be read by at least two unbiased peer reviewers, chosen avoiding any conflict of interest. PROGRESS IN AGRICULTURAL ENGINEERING SCIENCES applies a single-blind review process, in which the reviewers' identities are hidden to the authors while the reviewers are aware of the authors' identity.

Authors are welcome to suggest at most three potential reviewers when submitting their manuscripts. They cannot be employed in the same country as any of the authors. Suggested reviewers may not be in any way affiliated with the author or the work. Authors should provide academic/institutional email addresses of the proposed reviewers. The editor may not use author's suggestion, but it may facilitate the review process. Conflicts of interest and professional past are counterchecked in the case of recommended reviewers.

Excluding reviewers is also possible.

Unpublished results are treated strictly confidentially.

COPYRIGHT AND LICENCE POLICY

OPEN ACCESS

PROGRESS IN AGRICULTURAL ENGINEERING SCIENCES is a Hybrid Open Access journal. Authors can optionally choose Open Access publication, even retrospectively. With this choice, readers can read, download, copy, distribute, print, search or link to the full texts of articles, or use them for any other non-commercial lawful purpose. All articles are distributed under Creative Commons Attribution-NonCommercial 4.0 International Licenses.

The Open Access Licence Agreement form can be downloaded from [here](#) (and a slightly modified variant [here](#); for those authors who are eligible for Open Access publication through the EISZ consortial agreement, see below).

By default, the optional Open Access articles are published under the *Creative Commons Attribution-NonCommercial 4.0 International Licenses Copyright Terms*. With that, the authors grant to Akadémiai Kiadó Zrt. (hereafter the Publisher) an irrevocable nonexclusive license to publish the article in electronic and print format, and further sublicense the article in its original language throughout the world. The Publisher has the exclusive right to publish the article first.

Progress in Agricultural Engineering Sciences

Instructions for Authors

The Author shall declare and warrant that

- he/she is the exclusive author of the article along with the above indicated co-authors and he/she has the approval of all the other co-authors to publish the article in its current form,
- the article is their own intellectual product,
- the article is original, has not been formally published in any other peer-reviewed journal, is not under consideration by any other journal and does not infringe any existing copyright or any other third-party rights,
- there is no plagiarism in the article, the content is punctual and true to the best of the Author's knowledge, it does not include any libel, or parts that are obscene or violate the copyrights, private life or any other rights of a third party, or that are illegal and shall warrant that the manuscript is not partly or entirely under review or being published at any other journals either in English or in any other languages,
- the Author shall accept that he/she shall provide the exact location of the first publication of the article when making the article available to any third party and shall enclose the link to the location of the first publication in the following format: (<https://doi.org/> [The DOI-number of the article without brackets]).

The Publisher shall be entitled to the following – not exclusive - rights of use after the first publication:

- To make the article available to the public for download on their own official publisher webpage without any time restriction.
- To utilize the article for commercial purposes individually or for the entire journal without any geographic or time limitation (for subscribers, one-off downloaders, one-off buyers of the article archive, etc.).
- To convert the article into the optional electronic format, to copy the article on a PC or electronic data medium.
- To publish the article in the electronic and printed journals indicated on the official publisher homepage, also including those journals that are partially or entirely available to a third party against a subscription fee.
- To share the publishing and rights of use with any other third party, respectively exercise these rights together with a third party.
- To translate the article into a different language.
- To represent the author in the case of conducts of infringement of rights, unauthorized usage or violation of copyrights.
- To exercise all those rights that any third party is entitled to according to the license terms "CC BY NC" indicated above.

The articles published in the framework of the *EISZ Read and Publish Agreement* (see below) are covered by the *Creative Commons Attribution 4.0 International License*. That is, their use is allowed also for commercial purposes.

Authors not choosing Open Access publication are expected to sign the Copyright Transfer Form available [here](#).

SELF-ARCHIVING

Authors are entitled to *self-archive* the *postprint* version of their manuscript. The *postprint* version is the Author's manuscript or the galley proof or the Author's manuscript along with the corrections made in the course of the peer review process (thus the only version not included here is the final published version of the paper that is

Progress in Agricultural Engineering Sciences

Instructions for Authors

prepared after the galley proofs are sent back to the publisher). The Author's right to *self-archive* is irrespective of the format of the postprint (.doc, .txt, .pdf) version and self-archiving includes the free circulation of this file via email or publication of this postprint on the Author's webpage or on the Author's institutional, or any other repository with open or restricted access. When self-archiving a paper, the Author should clearly declare that the archived file is not the final published version of the paper, they should quote the correct citation and enclose a link to the published paper ([https://doi.org/\[DOI of the Article without brackets\]](https://doi.org/[DOI of the Article without brackets])).

The *final published version* of the paper can also be used and circulated *privately* (by sending it for example to colleagues or students) but the authors are not allowed to make it publicly available.

AUTHOR CHARGES

If choosing the optional Open Access publishing model, the corresponding author of the manuscript is requested to pay the *Article Processing Charge* (APC) to cover the publishing costs of the paper.

The current article processing charges are available at the publisher's website at https://akjournals.com/fileasset/kiado/OA_arak/APC_EUR.pdf.

In accordance with the agreement between the [Electronic Information Service National Programme](#) (EISZ) and Akadémiai Kiadó, papers with a corresponding author affiliated to a member institution subscribing to the journal package of Akadémiai Kiadó, can be published with no fee to be paid by the author.

Akadémiai Kiadó offers 50% discount for Editorial Board members, and institutions of lower-middle-income countries, while institutions of low-income countries are granted a full waiver. Discounts may not be combined. A limited number of waivers is available.

Once a paper is accepted for publication in **PROGRESS IN AGRICULTURAL ENGINEERING SCIENCES**, and the authors made the Open Access choice, they will be requested to enter our online payment platform (<https://apc.akademiai.hu>), where after registration they can upload the license agreement and transfer the fee. Article processing will commence even before payment is done but if the balance is not cleared by the time of publication, the article will be published in the subscription model. However, after the amount due has been remitted to our account it will be republished with Open Access.

Please note that there is no peer review charge, the only applicable fee is the article processing charge for authors of accepted papers who made the OA choice; and 40.00 EUR or 10,000 HUF (+ VAT, if applicable) for each illustration that the author chooses to be printed in colour.

For more information on Akadémiai Kiadó's Open Access policy visit our [website](#).

ETHICAL STATEMENT

PROGRESS IN AGRICULTURAL ENGINEERING SCIENCES and Akadémiai Kiadó are committed to the ethical practices in science publishing and therefore follow the COPE [Code of Conduct for Journal Editors](#) as well as the [Code of Conduct for Journal Publishers](#). All authors are expected to be aware and follow the [Ethical Guide of Akadémiai Kiadó](#), conform to the highest standards of ethical conduct in the submission of accurate data, and acknowledging the work of others.

Progress in Agricultural Engineering Sciences

Instructions for Authors

Editors and Editorial Board members are welcome to submit their own papers to their journal on whose board they serve. These submissions – as well as any other submission with which they have any kind of conflict of interest, e.g. those by their students – must be handled by other editors. All such submissions must be peer reviewed and evaluated as any other. Possible conflicts of interests (such as previous co-authorship or working in the same department) should be considered when choosing peer reviewers.

PREPARATION OF THE MANUSCRIPTS

PROGRESS IN AGRICULTURAL ENGINEERING SCIENCES publishes Original Research Papers, Review Papers and Preliminary Communications. Review papers are generally by invitation. However, prospective authors are welcome to submit review paper proposals to the Editor-in-Chief.

MANUSCRIPTS

Manuscripts should be written in clear, concise, and grammatically correct English, typed double-spaced. The order should be as follows: *title page, abstract, keywords, text, acknowledgements, references, tables, figures, figure captions.*

TITLE PAGE

The *title* should be concise and informative. This is followed by the name(s) of the author(s), the name(s) of the institution(s) where the work was carried out and the e-mail address and – preferably – the ORCID of the corresponding author.

ABSTRACT

The article should be preceded by a summary (not exceeding 150 words) giving a self-explanatory compendium of the essence of the paper.

KEYWORDS

Three to five keywords should be provided.

TEXT

The article will generally include the following headings: *Introduction*, beginning on a new page containing a survey of related literature and the objectives of the work, followed by *Materials and Methods, Results, Discussion, Conclusions.*

ACKNOWLEDGEMENT

You may add an optional *Acknowledgements* section for any further information you wish to disclose.

FOOTNOTES

should only be used if absolutely necessary.

REFERENCES

References must be given in alphabetical order. The style and punctuation of references should conform to that used in the journal, following the Harvard style. See the following examples:

Smith, P.S. (2002). A pump for use in windmill assembly, application no. 2008230011.

ISO. (2004a): *Sensory analysis – methodology-triangle test*. ISO 4120:2004.

TABLES

Each, bearing a title, should be self-explanatory. They should all be mentioned in the text, numbered consecutively with Arabic numerals and placed on separate sheets at the end of the manuscript, following the *References*.

FIGURES

Figures should be inserted within the text or in the end of the manuscript following the References, or as separate files if so preferred. Figures must be prepared in *.JPG, *.PNG or *.BMP format, and numbered in order of citation in the text. All figures should be mentioned in the text. Color or gray scale photographs and line drawings should be clear and their resolution must be at least 600 DPI.

Colour figures will be published in colour in the online version, however, the hard copy will be printed in black and white. Colour figures may be reproduced in the print version for an extra fee of 40.00 EUR or 10.000 HUF (+VAT, if applicable).

Progress in Agricultural Engineering Sciences

Instructions for Authors

For all figures, the author is responsible for the fair use. It is not sufficient to acknowledge the source. Whether the source figure is online or offline (printed), it is protected by copyright by default, unless otherwise specified by the copyright holder. For this reason, please include written permission for reproduction in the case of illustrations from external sources or cite the CC license which permits free reuse.

EQUATIONS, FORMULAS

To prove the objectivity of conclusions mathematical statistical methods must be used. Quantitative evaluation of data is indispensable.

When preparing equations and/or formulas, please use processable ones instead of inserting them as images. Manuscripts containing equations and/or formulas as images will not be processed but will be returned to the authors.

ABBREVIATIONS AND SYMBOLS

All abbreviations should be spelled out when first used in the text.

Units, symbols and abbreviations should be used according to SI (System International) rules. Unusual abbreviations must be explained in the text or in an appendix.

PROOF

Online page proofs for checking are requested to be returned within three working days of receipt. Please note that authors are urged to check their proofs carefully before submitting corrections, since late corrections cannot be guaranteed for inclusion and post-publication corrections are only possible in an erratum. Corrections to the proofs must be restricted to existing errors. Rewriting the text is not accepted in the proof stage.

Please note that changing authorship is not allowed in the proof stage. Only authors registered in the manuscript submission system at submission and listed in the accepted version of the manuscript will appear in the final version, in the order as found in the accepted submission.

Detailed instructions for publishing in Progress in Agricultural Engineering Sciences are available from the Editorial Office.
