REVIEW PROCESS

PREFERRED CONDITIONS OF MANUSCRIPTS

The SPRINT – SPORTS RESEARCH INTERNATIONAL strives to publish high quality papers. To ensure this goal, we apply some basic quality and relevance criteria when reviewing a manuscript, in particular every submission undergoes iThenticate plagiarism and self-plagiarism check (including original, revised as well as accepted versions of the MS). The similarity index may not be higher than 20% (excluding references). Not fulfilling these requirements may lead to desk rejection of a submitted manuscript.

REVIEW OF THE MANUSCRIPTS

Each paper will be read by at least two unbiased peer reviewers, chosen avoiding any conflict of interest. SPRINT – SPORTS RESEARCH INTERNATIONAL applies a single-blind review process, in which the reviewers’ identities are hidden to the authors while the reviewers are aware of the authors’ identities.

Authors are welcome to suggest three potential reviewers when submitting their manuscripts. They cannot be employed in the same country as any of the authors. Suggested reviewers may not be in any way affiliated with the author or the work. Authors should provide academic email addresses of the proposed reviewers. The editor may not use author’s suggestion, but it may facilitate the review process. Excluding reviewers is not possible.

In case the author wishes to have a figure in colour in the print version of the article too, an extra cost of reproduction in colour must be borne by the authors (40 EUR / colour figure, plus VAT, if applicable).

For all figures, the author is responsible for the fair use. It is not sufficient to acknowledge the source. Whether the source figure is online or offline (printed), it is protected by copyright by default, unless otherwise specified by the copyright holder. For this reason, please include written permission for reproduction in the case of illustrations from external sources and in the caption provide the credit line or cite the CC license which permits free reuse.

EQUATIONS, FORMULAS

In case your manuscript contains equations and/or formulas, please use processable ones instead of inserting them as images. Manuscripts containing equations and/or formulas as images will not be processed but will be returned to the authors.

Corrections to the proofs must be restricted to existing errors. Rewriting the text or modifying authorship is not accepted in the proof stage. Alterations in the illustrations should be avoided.

Please note that changing authorship is not allowed in the proof stage. Only authors registered in the manuscript submission system at submission and listed in the accepted version of the manuscript will appear in the final version, in the order as found in the accepted submission.
