Instructions for Authors

AIMS AND SCOPE

SPRINT – SPORTS RESEARCH INTERNATIONAL is an open-access journal aiming to provide an international publication forum for new research findings and new ideas on any field of sports. Today the sports research is conducted on every level, from molecules, to humans and to societies, including health, society, engineering, and many other sciences. With such an interdisciplinary and translational approach, SPRINT is welcoming and considering the following types of manuscripts: Original Research Papers, Short Communications, Case Reports, and Review Papers.

EDITORIAL BOARD INFORMATION

SPRINT – SPORTS RESEARCH INTERNATIONAL was founded in 2023 by the Hungarian University of Sports Science. Its publisher is Akadémiai Kiadó, Budapest, Hungary.

EDITORIAL BOARD

SPRINT – SPORTS RESEARCH INTERNATIONAL is handled by an independent Editorial Board of autonomous scholars. Free from any external influence, they decide about the journal's policies in general, and – based on the outcome of the peer review – about the acceptance or rejection of papers in each individual case. The names and affiliations of the Editorial Board members can be found on the journal's web page [https://akjournals.com/1020].

CONTACT

In case of any query, please, feel free to contact: sprint@tf.hu

ADDRESS OF THE EDITORIAL OFFICE

SPRINT

Hungarian University of Sports Science H-1123 Budapest, Alkotás u. 42-48, HUNGARY

PUBLICATION SCHEDULE

One volume of four issues is published annually.

DIGITAL ARCHIVE

The entire journal content is archived in the <u>Portico</u> preservation archive.

SUBMISSION INFORMATION

Submission of a paper to SPRINT – SPORTS RESEARCH INTERNATIONAL will be taken to imply that it represents original work not previously published, that it is not being considered elsewhere for publication, and that if accepted for publication it will not be published elsewhere in the same form, in any language, without the consent of editor and publisher. Submissions are to be accompanied by a signed statement thereof (see links to the License Agreement forms under section COPYRIGHT AND LICENCE POLICY/OPEN ACCESS below).

Instructions for Authors

SUBMISSION

Authors should submit their manuscripts using the online manuscript submission and peer review *Open Journal System*. Details are available online at https://submit.akademiai.com/sprint.

REVIEW PROCESS

PREFERRED CONDITIONS OF MANUSCRIPTS

The SPRINT – SPORTS RESEARCH INTERNATIONAL strives to publish high quality papers. To ensure this goal, we apply some basic quality and relevance criteria when reviewing a manuscript, in particular every submission undergoes iThenticate plagiarism and self-plagiarism check (including original, revised as well as accepted versions of the MS). The similarity index may not be higher than 20% (excluding references). Not fulfilling these requirements may lead to desk rejection of a submitted manuscript.

REVIEW OF THE MANUSCRIPTS

Each paper will be read by at least two unbiased peer reviewers, chosen avoiding any conflict of interest. SPRINT – SPORTS RESEARCH INTERNATIONAL applies a single-blind review process, in which the reviewers' identities are hidden to the authors while the reviewers are aware of the authors' identities.

Authors are welcome to suggest three potential reviewers when submitting their manuscripts. They cannot be employed in the same country as any of the authors. Suggested reviewers may not be in any way affiliated with the author or the work. Authors should provide academic email addresses of the proposed reviewers. The editor may not use author's suggestion, but it may facilitate the review process. Excluding reviewers is not possible.

Unpublished results are treated strictly confidentially.

COPYRIGHT AND LICENCE POLICY

OPEN ACCESS

SPRINT – SPORTS RESEARCH INTERNATIONAL is a Gold Open Access journal. Readers can read, download, copy, distribute, print, search or link to the full texts of all articles, or use them for any other non-commercial lawful purpose. By default, articles are distributed under the Creative Commons Attribution-Non-Commercial 4.0 International License.

The Open Access License Agreement form can be downloaded from here (and a slightly modified variant here, for those authors who are eligible for Open Access publication through the EISZ Open Access agreement, see below).

COPYRIGHT AND LICENCE POLICY

By default, the articles are published under the *Creative Commons Attribution-NonCommercial 4.0* International Licenses Copyright Terms. With that, the authors grant to Akadémiai Kiadó Zrt. (hereafter the Publisher) an irrevocable nonexclusive license to publish the article in electronic and print format, and further sublicense the article in its original language throughout the world. The Publisher has the exclusive right to publish the article first.

Instructions for Authors

The Author shall declare and warrant that

- he/she is the exclusive author of the article along with the above indicated co-authors and he/she has
 the approval of all the other co-authors to publish the article in its current form,
- the article is their own intellectual product,
- the article is original, has not been formally published in any other peer-reviewed journal, is not under consideration by any other journal and does not infringe any existing copyright or any other third-party rights,
- there is no plagiarism in the article, the content is punctual and true to the best of the Author's knowledge, it does not include any libel, or parts that are obscene or violate the copyrights, private life or any other rights of a third party, or that are illegal and shall warrant that the manuscript is not partly or entirely under review or being published at any other journals either in English or in any other languages,
- the Author shall accept that he/she shall provide the exact location of the first publication of the article
 when making the article available to any third party and shall enclose the link to the location of the first
 publication in the following format: (https://doi.org/ [The DOI-number of the article without brackets]).

The Publisher shall be entitled to the following – not exclusive - rights of use after the first publication:

- To make the article available to the public for download on their own official publisher webpage without any time restriction.
- To utilize the article for commercial purposes individually or for the entire journal without any geographic or time limitation (for subscribers, one-off downloaders, one-off buyers of the article archive, etc.).
- To convert the article into the optional electronic format, to copy the article on a PC or electronic data medium.
- To publish the article in the electronic and printed journals indicated on the official publisher homepage,
 also including those journals that are partially or entirely available to a third party against a subscription
 fee
- To share the publishing and rights of use with any other third party, respectively exercise these rights together with a third party.
- To translate the article into a different language.
- To represent the author in the case of conducts of infringement of rights, unauthorized usage or violation of copyrights.
- To exercise all those rights that any third party is entitled to according to the license terms "CC BY NC" indicated above.

The articles published in the framework of the *EISZ Read and Publish Agreement* (see below) are covered by the *Creative Commons Attribution 4.0* International License. That is, their use is also allowed for commercial purposes.

AUTHOR CHARGES

The current amount of the *Article Processing Charge* (APC) for authors of SPRINT – SPORTS RESEARCH INTERNATIONAL is zero.

For more information on Akadémiai Kiadó's Open Access policy visit our website.

Instructions for Authors

ETHICAL STATEMENT

SPRINT – SPORTS RESEARCH INTERNATIONAL and Akadémiai Kiadó are committed to the ethical practices in science publishing and therefore follow the COPE <u>Code of Conduct for Journal Editors</u> as well as the <u>Code of Conduct for Journal Publishers</u>. All authors are expected to be aware and follow the <u>Ethical Guide of Akadémiai Kiadó</u>, conform to the highest standards of ethical conduct in the submission of accurate data, and acknowledging the work of others.

Editors and Editorial Board members are welcome to submit their own papers to their journals. These submissions – as well as any other submission with which they have any kind of conflict of interest, e.g. those by their students – must be handled by other editors. All such submissions must be peer reviewed and evaluated as any other. Possible conflicts of interests (such as previous co-authorship or working in the same department) should be considered when choosing peer reviewers.

PREPARATION OF THE MANUSCRIPTS

SPRINT – SPORTS RESEARCH INTERNATIONAL publishes Original Research Papers, Research Short Communications, Case Reports and Review Papers. Review papers are generally by invitation. However, prospective authors are welcome to submit review paper proposals to the Editor-in-Chief.

MANUSCRIPTS

Manuscripts should be written in clear, concise, and grammatically correct English. Papers should be typed 1.5-spaced with 2.5 cm (1 inch) wide margins using Times New Roman font of 12 pt size. Pages should be numbered in sequence in the upper right corner, the title page being page one. The structure of the manuscript should be as follows:

title page, abstract, keywords, text, appendix, acknowledgements, notes, references, tables, figures and legends.

The electronic version of the manuscript (supplemented with figures) should be submitted in Word for Windows file.

COVER LETTER

Upload a cover letter as a separate file in the online system. The length limit is one page. The cover letter should

(a) summarize the contribution of the study to the scientific literature; (b) declare that the manuscript has not been published previously, is not under consideration for publication elsewhere and its publication is approved by all authors.

TITLE

The *title* should be a clear and concise statement of the contents in not more than 20 words.

AUTHOR INFORMATION

The title is to be followed by the authors' full name (given name and surname) and affiliation (including the name of the institution(s), the city and the country). The mailing address, e-mail address, phone and fax numbers of the corresponding author must also be given in the title page.

Instructions for Authors

ABSTRACT

A *structured abstract* should not exceed 250 words and should briefly outline the purpose, main methods, results (new findings supported by data) and conclusions of the study.

KEYWORDS

The abstract should be followed by at least 5 and a maximum of 10 keywords.

TEXT

The text of the paper should be divided into sections with the following headings:

Introduction, Materials and Methods, Results, Discussion, Acknowledgements, References.

INTRODUCTION

Should briefly state the nature, purpose, and reasoning of the work and cite recent important publications by others. State the hypothesis (if any) and the main aim of the study.

MATERIALS AND METHODS

Should contain all the necessary information required for possible repeating of the experiments, supported by references regarding previous use of methods, and the statistics used.

RESULTS

This section should contain the data, Figures and Tables, and be tightly focused only on findings.

DISCUSSION

Should summarize the main findings of the study, interpretation of findings in view of other findings in the literature, and conclusions.

ACKNOWLEDGEMENT

In the Acknowledgement the author should list grants and technical help.

REFERENCES

Cite only relevant references.

References in the text should be cited by names and reference number if they are part of the sentence: "Hilton [5] described earlier...;" otherwise they should be indicated by the reference number(s) in parentheses [3, 7, 12] or [5–12]. Two authors should be given with 'and' between them. If there are more than two authors, the name of the first author should be used, followed by 'et al.'.

List the References in the order of appearance in the text at the end of the paper. Use the VANCOUVER style for formatting the *reference list*. Please see the following examples:

Instructions for Authors

TABLES

Tables should be comprehensive to the reader without reference to the text. Each table should have a concise heading typed above the table. Tables are numbered consecutively with Arabic numerals.

FIGURES

Figures (line drawings, diagrams, photographs) should be numbered consecutively with Arabic numerals. Figures should be submitted in a separate file. All figures should be referred to in the text.

Figure legends should contain a brief title followed by explanations to fully comprehend the figure.

Figure formats. All figures and graphs should be submitted either in the original file format in which they were prepared (e.g. .xlsx), or in image formats (.png, .tiff or .jpg). Figures are printed in 600 dpi resolution, so please send them at least of 2000-3000 pixel size in each dimension. Colour photographs are accepted, and online they will be released in colour. In case the author wishes to have a figure in colour in the print version of the article too, an extra cost of reproduction in colour must be borne by the authors (40 EUR / colour figure, plus VAT, if applicable).

For all figures, the author is responsible for the fair use. It is not sufficient to acknowledge the source. Whether the source figure is online or offline (printed), it is protected by copyright by default, unless otherwise specified by the copyright holder. For this reason, please include written permission for reproduction in the case of illustrations from external sources and in the caption provide the credit line or cite the CC license which permits free reuse.

EQUATIONS, FORMULAS

In case your manuscript contains equations and/or formulas, please use processable ones instead of inserting them as images. Manuscripts containing equations and/or formulas as images will not be processed but will be returned to the authors.

ABBREVIATIONS AND SYMBOLS

All abbreviations should be spelled out when first used in the text. Please identify unusual symbols on the margin. Quantities should be expressed in SI units.

PROOF

Online page proofs for author's approval or corrections are requested to be returned within 48 hours from receipt. Please note that authors are urged to check their proofs carefully before submitting corrections, since late corrections cannot be guaranteed for inclusion and post-publication corrections are only possible in a corrigendum/erratum. Corrections to the proofs must be restricted to existing errors. Rewriting the text or modifying authorship is not accepted in the proof stage. Alterations in the illustrations should be avoided.

Please note that changing authorship is not allowed in the proof stage. Only authors registered in the manuscript submission system at submission and listed in the accepted version of the manuscript will appear in the final version, in the order as found in the accepted submission.
