

AKJournals is a branch of Akadémiai Kiadó (AK), which is the oldest continuously operating as well as one of the largest scientific publishers in Central and Eastern Europe. It fully embraces the values of Open Science and is dedicated to its success.

As part of this mission, AKJournals offers Read & Publish packages to smaller and larger consortia alike, both for shorter and longer periods. To inquire about their attractive prices, feel free to use the contact address below.

The current portfolio of AKJournals consists of 48 active, peer-reviewed journals – of which 37 are international – disseminating a wide range of new results from the various domains of science.

**48 active, peer-reviewed
37 international journals**
